0057 NOTICE ACT/007/03/6#1

The following notice of intent to construct, submitted in accordance with Section R307-401-1, Utah Air Quality Rules, has been received for consideration by the Executive Secretary, Utalt Air Quality Board: Copy Daron

Plateau Mining Corporation

Location: 847 NW Hwy 191, Helper, UT 84526

Project Description: Plateau Mining Corporation (Plateau) is requesting a modification at the Willow Creek Coal Mine and Processing Plant. Plateau has proposed the addition of a reclaim feeder, crude oil/water separator tanks and collection tank, and requested an increase in the current rock dust usage limitation. Plateau currently operates under Approval Order (AO) DAQE-209-99 dated March 15, 1999. Particulate emissions will increase in the rock dust storage silo area and from the installation of the reclaim feeder. Emissions will be controlled through the use of a fabric filter control device on the rock dust silo and water sprays on the reclaim feeder. The facility is located in Carbon County. The addition of this equipment is a minor modification to a minor source located in an attainment area of the national ambient air quality standards for all criteria pollutants. New Source Performance Standards (NSPS) Subpart Y (Standards of Performance for Coal Preparation Plants) apply to the proposed additional equipment. There will be a 0.18 tons per year increase in PM, emissions. Title V applies to this source. Therefore, a 30-day public comment period

The Proposed Emissions increase will be:

PM₁₀

0.15 tons/year

The engineering evaluation and air quality impact analysis have been completed and no new violation of National Ambient Air Quality Standards or Prevention of Significant Deterioration Increments will occur. It is the intent of the Executive Secretary to approve the construction project.

The construction proposal and estimate of the effect on local air quality are available for public inspection and comment at the Utah Division of Air Quality, Department of Environmental Quality, 150 North 1950 West, Salt Lake City, Utah 84114-4820. There will be a 30-day comment period held. Written comments received by the Division, at the same address on or before December 26, 1999, will be considered in making the final decision on the approval/ disapproval of the proposed construction.

If anyone so requests to the Executive Secretary at the Division in writing, within 15 days of publication of the Notice, a hearing will be held to explain the project and technical rationale for the proposed action. The hearing will be scheduled as close as practicable to the proposed project location. Comments obtained during the hearing will be evaluated and considered by the Executive Secretary before making a final decision on the approval/disapproval of the project. Date of Notice: November 30, 1999.
